

## SCIATICA LOSES ITS TERRORS

This Disease Is a Form of Neuralgia and Is Cured by the Remedy That Cures Other Forms.

Sciatica is neuralgia of the sciatic nerve and the treatment should be the same as for other forms of neuralgia. Lack of blood is almost always associated with neuralgia. Build up the blood, the impoverished nerves are fed and the neuralgic pains disappear. Absolute rest is the best aid to proper medical treatment.

So many severe cases of sciatica have been cured by Dr. Williams' Pink Pills that every sufferer is justified in giving the treatment a thorough trial. A recent cure is that of Mr. L. H. Smith, a farmer, of Bolivar, Ohio, who says:

"I think the sciatica in my case was caused by a heavy fall on my left side. I kept on working after the injury which had left my leg and hip very sore. The pains were severe and cutting and were worse whenever I climbed up and down stairs as I had to do every evening for I was employed as a night watchman at that time. The pains extended down to my foot and were constant unless I sat down and placed my leg out straight. Often I was forced to use crutches. The pains were so severe that I could not get more than two and one-half hours' sleep at a time.

The doctor's medicine did not agree with my stomach and did not help me. I was under the care of different doctors for eight or ten months and then gave them up and started to use Dr. Williams' Pink Pills. I experienced relief sooner than I had hoped for and took several boxes of the pills. I am now in good health, the pains have entirely left me and I can use my leg without the slightest pain. I think Dr. Williams' Pink Pills have no equal and recommend them hoping I may be the cause of some sufferer getting relief."

If you have sciatica, or sciatic rheumatism, and the treatment you have taken proved of no benefit, it is time that you tried the remedy that has cured so many stubborn cases—Dr. Williams' Pink Pills.

These pills are sold by all druggists, or will be sent, postpaid, on receipt of price, 50 cents per box; six boxes, \$2.50, by the Dr. Williams' Medicine Company, Schenectady, N. Y.

## Imported Seeds

ORDERS TAKEN FOR

### Tropical Economic Seeds

**RUBBER**—Manihot dichotoma, Manihot plumbeyensis.

**COTTON**—Caravonica Silk, Egyptian, Mit-Affi, Yarnovitch and Noubary, Sea Island.

**TOBACCO**—Cuban, Turkish, Sumatra.

SEAS CURIO CO.**  
(Under Electric Sign)

## Proposed Clubhouse for the Palolo Improvement Club

There will be a meeting of the Wai-  
alae, Kaimuki and Palolo Im-  
provement Club this evening at the home  
of A. F. Cooke. The meeting will be  
for the consideration of a new club-  
house for which plans have been drawn  
by Architect M. H. Webb. The im-  
provement club is very strong now, has  
a fund in the treasury and proposes  
to do things on a larger scale. Addi-  
tional funds will soon be raised by  
means of a downtown fair or luau; and  
there have been some private sub-  
scriptions.

#### TOYS IN EGYPTIAN TOMBS.

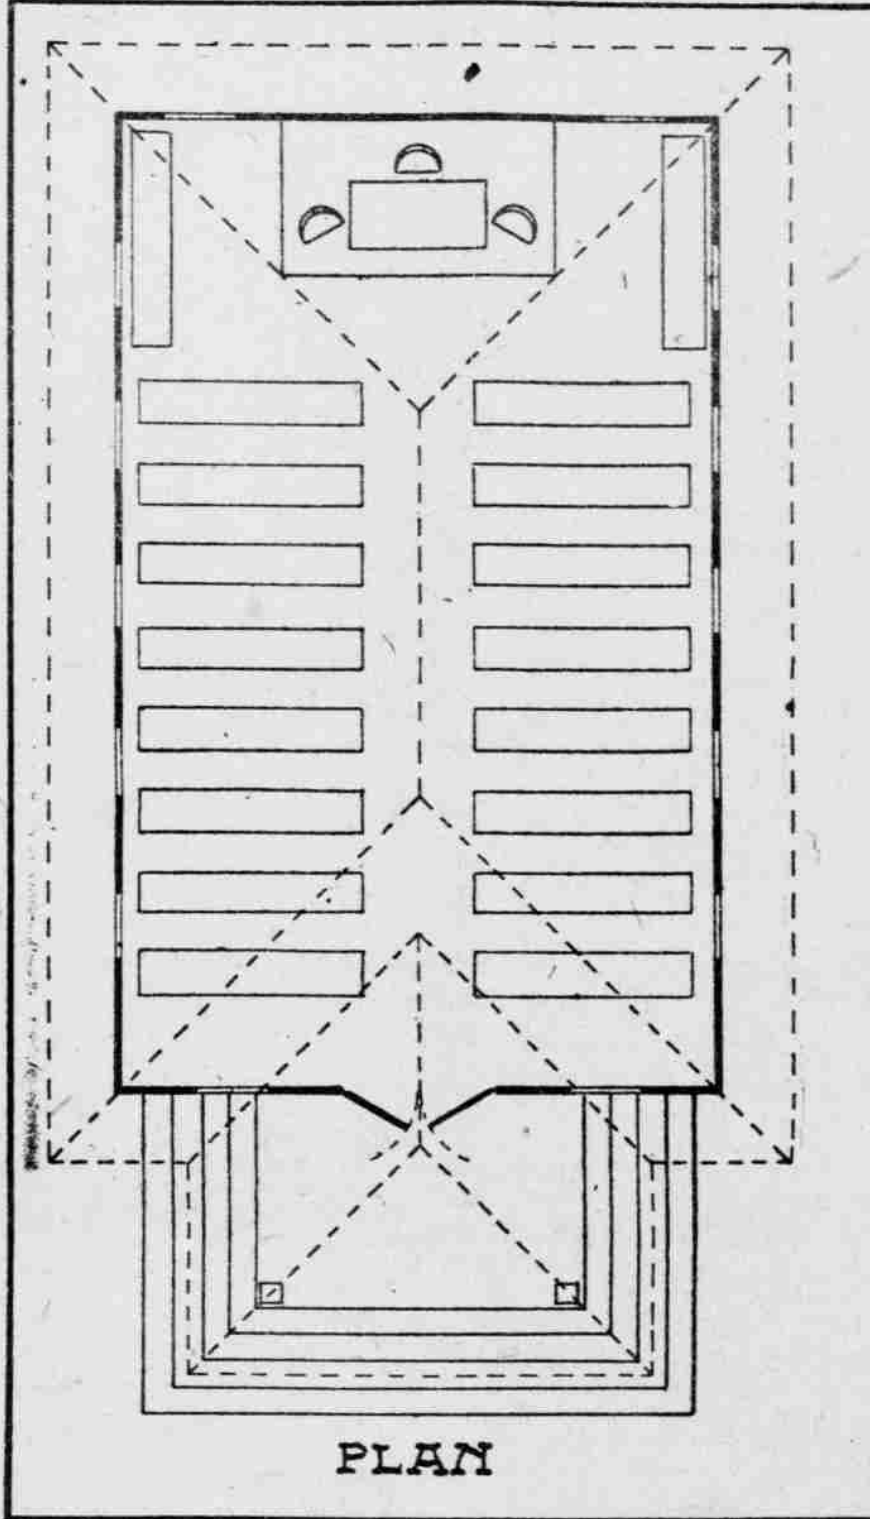

None of all the chapters in Profes-  
sor Maspero's popular written vol-  
ume, "New Light on Ancient Egypt,"  
exceeds the concluding one for interest  
and suggestive thought. He there deals  
with the toys that have been found  
from time to time in Egyptian tombs,  
describing exactly what they are like,  
and indicating the purpose they were  
intended to serve. Playthings to all  
appearance, they were not playthings  
for the dead. The Egyptians' ideal on  
earth was to possess a home, land,  
slaves and concubines, for the owner-  
ship of which they were indebted to  
none but themselves. The little painted  
dolls and the miniature houses that  
were interred with the dead procured  
a paradise in which their dreams were  
realized. The belief was that the dolls  
would come to life and grow to full  
stature of men and women, and that  
the houses would expand to their  
normal size—all by some miraculous  
interposition.

During the early periods of Egyptian  
civilization the right to a future life  
could be claimed only by the extremely  
wealthy. The lives of many women,  
children, slaves and animals had to be  
sacrificed to accompany the "double"  
into the other world. The descendants,  
overcome with grief, but chary of the  
cost, substitute for these expensive  
victims statues representing each of  
them at his craft, the woman grinding  
the corn, the baker at his kneading  
trough, the cellarer sealing up his wine  
jars, the mourner beating his forehead  
and cutting his face.

All the wealth of all the nations of  
all the world comes from mining, and  
civilization itself is dependent on the  
industry. Buy "Mayflower" stock.  
Buy it now!

#### A FOOLISH OLD IDEA.

It was once thought that a  
medicine was all the more bene-  
ficial for having a nasty taste and  
smell. We now know that such an  
idea is perfect nonsense. There is no  
more reason why medicine should  
offend the senses than why food should  
do so. Therefore, one of the greatest  
chemical victories of the past few  
years is what we may call the *redemption*  
of cod liver oil. Everybody knows what a  
vile taste and smell this drug has  
in its natural state. No wonder  
most people declare they would  
rather suffer from disease than  
take plain cod liver oil, and the  
emulsions are as bad, no matter  
what may be alleged to the con-  
trary. Now it is one of nature's  
laws that a medicine which dis-  
tastes the nose and the palate,  
and also sickens the stomach, can  
have no good effect as a medi-  
cine, because the system cries  
out to be delivered from it. In  
WAMPOLE'S PREPARATION  
the desired miracle is wrought,  
and we have the valuable part of  
the oil, without the other. This  
effective modern remedy is palat-  
able as honey and contains all  
the curative properties of pure  
Cod Liver Oil, extracted by  
us from fresh cod livers, com-  
bined with the Compound Syrup  
of Hypophosphites and the Ex-  
tracts of Malt and Wild Cherry.  
The palate accepts it as it does  
sugar, confectionary or cream.  
Taken before meals it goes to the  
very secret stronghold of diges-  
tive disorders, and strengthens  
the system against Scrofula,  
Throat and Lung Troubles and  
all diseases due to impurity of  
the blood. Dr. G. C. Shannon, of  
Canada, says: "I shall continue  
its use with, I am sure, great ad-  
vantage to my patients and satis-  
faction to myself." It has all  
the virtues of cod liver oil; none  
of its faults. Sold by chemists.

PLAN

—M. H. Webb, Architect.  
CLUBHOUSE FOR WAI-ALAE, KAIMUKI AND PALOLO IM-  
PROVEMENT CLUB.

## DR. CHAPMAN'S SUCCESS IN THE BOSTON REVIVAL

Never was any great religious awak-  
ening better or more sympathetically  
heralded and recorded by the news-  
papers than the recent Boston revival.  
Never before was such generous space  
accorded so continuously to any relig-  
ious movement and for so long a  
period of time. In many of the leading  
dailies, not columns, but pages were  
devoted every day to the reports of  
the meetings. Editorials as friendly  
as were the reporters' pictures were  
continually appearing. In fact, there  
was scarcely a discordant note struck  
in any paper by either editor or cor-  
respondent during the four weeks the  
revival was in progress.

It is interesting to note the opinions  
of the reporters of the different pa-  
pers.

The Journal (Royal A. K. Brown)—  
"From the standpoint of a newspaper  
man—and that means copy, always—  
the meetings Dr. Chapman and Mr. Al-  
exander have held in Boston have out-  
distanced anything I have ever wit-  
nessed. It has been my part to cover  
a hundred of these meetings, yet never  
once have they palled, never once have  
they lost their inspiration. They have  
left their mark on Boston."

The Post (Thos. E. McLaughlin)—  
"The fair-mindedness of the leader  
and his co-workers in the Boston re-  
vival has been in my mind, and I be-  
lieve in the minds of the other report-  
ers, one of the most conspicuous parts  
of the entire campaign."

"The appeals of Dr. Chapman, each  
full of judgment and discretion, have  
been appreciated by practically all of  
Boston's thinking men and women, re-  
gardless of creed."

The American (Clement L. Pollock)—  
"In the course of twenty years of  
general reporting in New York and  
this city, which included many other  
religious revivals, I have never be-  
fore witnessed such genuine religious  
enthusiasm as has been manifested at  
the present Boston Chapman-Alexander  
meetings."

"I attribute this to two causes—  
first, it was the psychological time in  
this city for the movement to begin;  
second, Chapman, Alexander and their  
assistants were the right people for  
it."

The Herald (Geo. R. Conroy)—  
"Four things impressed me especially

in connection with the Chapman-Alex-  
ander revival in Boston—the powerful  
preaching of Dr. Chapman, the won-  
derful ability of Mr. Alexander as an  
instructor and leader of audiences in  
the singing of Gospel songs, the ab-  
sence of any tendency toward the so-  
called 'sensationalism' usually associ-  
ated with revivals, and the apparent  
earnestness of men and women, and  
particularly men, of all classes and all  
degrees of culture and social standing,  
to attend the meetings and listen to  
the simple story of the Cross."

The Globe (Walter E. Colby)—  
"Chapman's services are dramatic, as  
he intends, and he's the one who makes  
them so. Alexander is responsible for  
a great deal of this element in the  
meetings, but it is Chapman who dic-  
tates the order of things and lays the  
dramatic situations. Besides, appear-  
ing on the platform, he does as much  
work, and with as much despatch and  
ability, as any business man in Boston,  
in looking after the details of the  
campaign, and they are legion."

The Traveler (Persid D. Hannah)—  
"Two things about the leaders of the  
campaign struck me as especially re-  
markable. First, the Chapman-Alex-  
ander ability instantly to get into tune  
with the crowd they have to handle,  
whether it be made up of riffraff of the  
streets or aristocracy of the Back  
Bay; second, their power to make even  
newspaper men, who are not easily con-  
vinced, believe thoroughly in their sin-  
cerity and genuineness."

Dr. Chapman and his party sail from  
Vancouver today on the Makura, and  
will be here Friday to hold at least  
one or two meetings. Honolulu should  
turn out en masse to greet them.

#### MEDICINES MADE FROM ROOTS AND HERBS.

In the good old-fashioned days of  
our grandmothers they depended upon  
medicines made from the roots and  
herbs of the field to cure disease.

Lydia E. Pinkham's Vegetable Com-  
pound, that standard remedy which is  
made from roots and herbs for wo-  
man's ills, had its origin in this way.  
For thirty years it has been redeeming  
its promises written on the label of  
every bottle by curing thousands of  
women of feminine ills. It's a good,  
honest medicine.
